*Cast aside all hatred
and embrace love.*

“The time has come for the scions of Light, who have been scattered throughout the world, to awaken. The age in which the Truth will be preached on a global scale has finally arrived. You must work to build utopia on Earth, overcoming differences of nationality by acting simply as inhabitants of this planet. In the past you were all children of God working together to spread the Light, and you shall remain so both now and in the future. Cast aside all hatred and embrace love. Do not mourn over differences but rejoice in the equality of your divine nature. The new millennium will be full of hope.”

By MASTER RYUHO OKAWA, from the preface of *The Golden Laws*

*“We raise our voices as those who take responsibility for the future.
It is my sincere wish that our message will reach your heart.”*

From *The Laws of Creation*, Chapter 6

Master Ryuho Okawa has been devoting his life to bringing happiness to humanity. He has given over 2,300 lectures around the world.

Over 2,300 Lectures

Master Okawa has given over 2,300 lectures (as of Jan 2015) since he began speaking publicly in 1986 and he continues to light the hearts of people all around the world. He has spoken to audiences of up to 50,000 people at some of Japan's largest venues such as Tokyo Dome Stadium and Saitama Super Arena. Moreover, his lectures are regularly broadcasted live to over 3,500 locations across Japan and the globe. In order to meet and speak with members directly, Master Okawa travels to Happy Science temples to preach on various topics. Not only in Japanese, but he also gives lectures in English for an ever-growing number of believers in over 100 countries.

The World Teacher

Master Okawa is the world teacher of true happiness, whose mission is to teach principles that will guide humanity for the next two to three thousand years.

Since 2007, he has begun the missionary tour, passionately lecturing all over Japan as well as throughout the world's five continents - North America, South America, Eurasia, Australia and Africa - as the world teacher to guide people to true happiness by overcoming the difference of races and religions. His English lectures have been aired on TV and covered in many newspapers in Asia as well as in Africa. Master Okawa and Happy Science now attract significant media attention from around the world.

Lectures given : over 2,300

Countries where

Master Okawa gave lectures :

Japan, USA, South Korea, UK, Taiwan, Australia, Brazil, India, Nepal, The Philippines, Hong Kong, Singapore, Malaysia, Sri Lanka, Uganda

(As of Jan 2015)

2008 New York, USA

2010 Sao Paulo, Brazil

2011 Sri Lanka

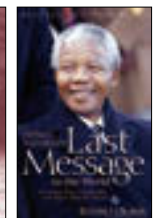

“What I am doing now through Happy Science is to prove absolutely the existence of the other world.”

From *The Laws of Future*, Chapter 5

Spirits that were called upon:

Jesus Christ, Moses, Jan Hus, St. Joan of Arc, Mother Teresa, Florence Nightingale, Martin Luther, Saladin, Shakyamuni Buddha, Zeus, Manu, Zoroaster, Edgar Cayce, Confucius, Lao Tzu, Jean Jacques Rousseau, Immanuel Kant, Rudolf Steiner, Karl Marx, Tolstoy, HG Wells, PF Drucker, Adam Smith, John Maynard Keynes, Friedrich Hayek, Carl Gustav Jung, Thomas Edison, Albert Einstein, Galileo Galilei, Barack Obama, Franklin D Roosevelt, Vladimir Putin, Sir Winston Churchill, Xi Jinping, Sun Yat-sen, Kim Jong Un, and more.

Master Ryuho Okawa has summoned over 500 spirits to prove the existence of the spirit world, and over 300 of them have been published as the “Spiritual Messages Series.”

Spiritual Messages

Communicating with the spirit world and exploring and revealing its mysteries has been Master Okawa's continued effort since he attained Great Enlightenment thirty four years ago, in 1981. As proof of the existence of the spirit world, he has published spiritual messages. “Spiritual messages (*Reigen* in Japanese)” are the words of spirits revealed through the vocal chords of Master Okawa. Unlike

normal channelers, Master Okawa is able to summon any spirit at his will and stay conscious during the entire procedure. Since 2009, Master Okawa began to conduct these spiritual messages in public, and he has already called upon more than 500 spirits. He has been recording and publishing messages not only from spirits of the other world but also from the guardian spirits of those who are still living.

Master Ryuho Okawa has published over 1,800 titles, and many have been translated into 27 different languages.

Author of Over 1,800 Books

Master Okawa has released over 1,800 titles including his most famous book, *The Laws of the Sun*. Many of his books have ranked as bestsellers, some even becoming million-sellers. His publications include topics on true love, spiritual happiness, family harmony, work, management, economy, politics, world affairs, as well as the truth about the spirit

world and the universe. Solutions to today's sufferings and conflicts are given, paving the way for all people and all nations to achieve true happiness.

In 2010 alone, Master Okawa published 52 books. It was recorded by Guinness World Records as “the most books written in one year by an individual.” After that, the number of publications increased and, in 2014, he published 161 books, over three times as much as this record.

Published Titles : over 1,800
Translated Languages : 27
Published Spiritual Messages Series :
over 300

(As of Jan 2015)

The basic teachings of Happy Science are “The Exploration of the Right Mind” and the “Fourfold Path.”

The Exploration of the Right Mind

The basic teaching of Happy Science is “The Exploration of the Right Mind.” Human beings are all children of God, and within each and every one of us is a divine-nature. Seeking for this divine-nature, the “right mind” is the path to true happiness.

Fourfold Path, the Principle of Happiness

The Principle of Happiness, the “Fourfold Path” is the guidepost on how to explore our right mind. They are composed of love, wisdom, self-reflection and progress.

♦ **Love** – Give love without expecting anything in return.

True love is to give to others - not to take from others. Just by practicing this ‘giving love,’ the gates to Heaven will open up before you.

♦ **Wisdom** – Gain wisdom to solve problems in life.

It is to gain real knowledge of spiritual Truth, so that we can become experts at solving the problems in life that we constantly encounter.

♦ **Self-reflection** – A method to connect to Heaven.

As children of God, we all have a divine-nature within like a diamond. However, just as a diamond needs to be polished to bring out the beauty, we need to go through daily self-reflection to brighten our soul and connect to Heaven.

♦ **Progress** – Our goal is to create an ideal world.

True progress is always blessed with a genuine feeling of happiness, and real success is spreading this happiness to many. We are trying to create an ideal world by increasing and developing the cycle of happiness.

Happy Science Prayers

The main sutra (prayer) of Happy Science is *The Dharma of the Right Mind*. This prayer contains the core teachings of Happy Science and many books written by Master Ryuho Okawa are extensive explanations of this sutra. There are many more various prayers in Happy Science.

Faith in Lord El Cantare

Happy Science believers has a strong faith in the God of the Earth, El Cantare. He is the existence whom Jesus Christ called “Father” and Mohammed referred to as “Allah,” and a part of him was born as Shakyamuni Buddha. In the Old Testament, El Cantare is known as Elohim, and he also represents the Tree of Life in the ancient legend of “The Tree of Life.” All religions originally come from one source – El Cantare, the being that designed this world with love. A part of El Cantare resides within Master Okawa, and is guiding humanity to create a world of harmony and prosperity.

Ryuho Okawa

Master Ryuho Okawa, the Founder and CEO of the Happy Science Group, was born on July 7, 1956 in Tokushima Prefecture, Japan. After graduating from the prestigious University of Tokyo, he joined a Tokyo based international trading company. While working at the company's New York headquarters, he studied finance at the Graduate Center of the City University of New York.

On March 23, 1981, he achieved Great Enlightenment and awakened to the hidden part of his consciousness, El Cantare, whose mission is to bring true happiness to all humanity.

In 1986, Master Okawa renounced a promising career as a businessman and devoted his life to spreading the Truth. He established Happy Science (*Kofuku-no-Kagaku* in Japanese), which was registered as a religious organization in 1991 in Japan.

Since then, he has been lecturing around the world as the world teacher. He has given over 2,300 lectures in both Japanese and English, published more than 1,800 books, including *The Laws of the Sun*, which became a million seller. He has also created numerous seminars and produced 9 films based on his teachings.

Furthermore, he is laying the foundation for ideal politics and education by establishing the Happiness Realization Party and the Happy Science Academy for manifesting happiness in a tangible way. Also in April 2015, Happy Science University will open.

Teachings Spreading Around the World

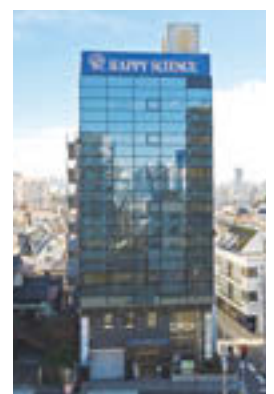

Books by Master Ryuho Okawa in Japanese have been translated into 27 languages and have been popular among readers around the world.

Worldwide Activities

Happy Science originated in Japan and is now growing rapidly around the globe. People from all walks of life gather here to attain true happiness with the mission to spread this happiness to many.

Happy Science is an international organization with more than 12 million members in over 100 countries. We conduct a variety of activities based upon the belief that the happiness of society as a whole is realized through the happiness of each individual.

Service

Happy Science conducts a number of services such as Sunday Service, 7th Day Gratitude Service and Memorial Day ceremonies, led by the Head Minister at each location.

Learning the Truth

Numerous workshops and seminars based on the books and lectures of Master Okawa are offered to help in the learning and practicing of the truth.

Community Activities

By providing spiritual teachings, we aim to promote righteousness and love in the world. Also, by taking concrete actions, such as charity and social work, we strive to change society in a positive way. We have community meetings, missionary houses and local temples where groups of people can study and discuss on the teachings of Master Okawa and do missionary activities together.

A Happy Science temple is a sacred place, connected to the heavenly world.

Local Temples and Centers

Currently Happy Science has 10,000 local temples and centers around the world. Believers gather together at these locations to study the Truth. They are the lighthouses of Truth where everyone can come together.

Main Temples (Shoshinkan and Shoja)

Also Happy Science has 28 'Shoshinkans' and 'Shojas' in Japan as well as overseas. Shoshinkans and Shojas are the main temples where people can feel Heaven in close proximity and make rapid advances in their spiritual training. Here are some of the things you can do and experience when you visit Shoshinkan and Shoja.

◆International Retreats:

International Retreats are held several times a year in English. People from around the world gather to refine their mind and enhance their spirituality. Retreats in other languages are also held separately upon request from individual temples throughout the world.

◆Seminars:

Seminars are great opportunities to see your mind in the light of Truth and gain wisdom that will help you find true happiness.

◆Ritual Prayers:

Whether it be about succeeding in life, happiness in home, or recovering from illness, if you are selfless and praying to be able to contribute to the world through your happiness and success, your prayer will surely reach the Heavenly Realm and a guiding light will shine down upon you.

◆Samu (Cleaning Discipline):

This is a traditional Buddhist practice to discipline our mind and to polish it while deep in contemplation. It is also a method to increase our gratitude and love for others.

◆Unsui (Spiritual Discipline):

This is a type of discipline where you distance yourself from the secular world and live inside the Shoshinkan/Shoja, doing meditation and cleaning discipline. People can do this for 6 months to up to 2 years. You will be able to discover your true self and discover great wisdom you can treasure your entire life.

Missionary Homes Around the World :
around 10,000
Local Temples and Centers in Japan : over 600
In Countries Besides Japan : around 100
Main Temples in Japan : 25
In Countries Besides Japan : 3

Conducted Ritual Prayers :

Prayer for Peace at Home, Prayer to Seal Evil Spirits, Prayer for Success in Business, Prayer for Multiplying Happiness and Virtue, Prayer to Develop Our Destiny, Prayer to Enhance Academic Ability, Initiation to Purify Your Past, etc.

Conducted Seminars :

Seminar on The Eightfold Path, Meditation for Harmony with Human Relationship, Meditation to Attract Infinite Wealth, Seminar on Becoming Free from Fear, Seminar on Basics of Loving Yourself, etc.

Covered by Media Around the World

2012, news of the movie "Final Judgment" was covered on Reuters' website.

Master Okawa's lectures in overseas were covered in various newspapers, TV and radio programs.

"The Atlantic" – article on Happiness Realization Party (2012).

"New York Times" online news – article on Master's spiritual messages (2013).

Article on Master Okawa was published in "The Financial Times" and "The Wall Street Journal" in 1991.

Brazil's famous TV program aired featured story on Happy Science in 2011.

People from all walks of life connect through El Cantare Belief.

People of all backgrounds have been joining this new movement and studying the teachings together in joy, whether Christian, Muslim, Jewish, Buddhist, Hindu, Freethinker, or otherwise.

Thomas Belly was in despair after losing 15 members of his family, but was saved by the teachings of the God of love and mercy, Lord El Cantare.

In May of 2004 the war was at its worst in Uganda. When I was out on a business trip one night I lost 15 members of my family at once. One of the survivors told me how rebel troops had come in with guns and started shooting people. My family was in our home as it was burnt down. After the shock my heart was filled with anger, hatred, and sadness - these feelings took over my mind so I started to go to church everyday to pray and ask for salvation. But the scar in my heart just kept growing. After six years my life suddenly changed when I went to a Happy Science seminar. The Happy Science branch manager of Uganda freed me from the past and opened up my heart. During the seminar he said, "Please free your heart from anger, sadness, and hatred that has come from war, poverty, sickness and many other sufferings in this world... no matter what kind of situation you are in, start by giving love to others. Lord El Cantare tells us to love each other, forgive each other, and nurture each other." Listening to these words, my future opened up and I finally was able to receive an answer from God. Without thinking or hesitating I became a member of Happy Science. For the people of Uganda whose hearts are still in agony over the sadness of war I want to help them achieve peace and freedom through these teachings.

Heleno Ramos was a strict Christian but through Jesus's spiritual message was guided to faith in Lord El Cantare.

Since I was a teen, I was a part of the strict religious Protestant Evangelicals that placed many restrictions on daily life. At 20, I began to feel this was becoming a hindrance to my life and I stopped going to church. Later, a staff of Happy Science Brazil gave me a book saying, "we will be publishing this spiritual message from Jesus Christ, give me your opinion." I read it but it was difficult for me to believe. However later a line from the book kept recurring in my head: "Why is it that you cannot believe?" I somehow felt this contained Jesus' love. I started to read Master Okawa's books and little by little the way I think started to change. In the book "The Starting Point of Happiness" I realized that true happiness lies inside my mind. So at work I started to pray whenever I was rattled in order to calm and pacify my mind. Then the people around me started to trust me and ask me for relationship advice. My job started to get better and my salary was raised. The more I learned the more my mind became calm. The teachings of reincarnation which are not taught in Christianity freed me from the fear of death that I had for many years. In Happy Science we learn that through self-reflection the sins from the past can be erased and even the people who are in hell can return to heaven through self-reflection. Everyone is given another chance. Now I can clearly see the light of the Truth and I want to let everyone know of this salvation that extends beyond the boundaries of different religions.

Education

* Bottom half are the students from Happy Science Academy.

Happy Science University

* This is an unaccredited institution of higher education.

The Founding Spirit and the Goal of Education

Based on the founding philosophy of the university, "Pursuit of happiness and the creation of a new civilization," education, research and studies will be provided to help students acquire deep understanding grounded in religious belief and advanced expertise with the objectives of producing "great talents of virtue" who can contribute in a broad-ranging way to serve Japan and the international society.

Overview of Faculties and Departments

◆Faculty of Human Happiness, Department of Human Happiness

Students in this faculty will pursue liberal arts from various perspectives with a multidisciplinary approach, explore and envision an ideal state of human beings and society.

◆Faculty of Successful Management, Department of Successful Management

This faculty aims to realize successful management that helps organizational entities of all kinds to create value and wealth for society and to contribute to the happiness and the development of management and employees as well as society as a whole.

◆Faculty of Future Industry, Department of Industrial Technology

This faculty aims to nurture engineers who can resolve various issues facing modern civilization from a technological standpoint and contribute to the creation of new industries of the future.

Party Leader
Ryoko Shaku

Politics

Happiness Realization Party

The Happiness Realization Party was founded in May of 2009 by Master Ryuho Okawa as part of the Happy Science Group to offer concrete and proactive solutions to the current issues such as military threats from North Korea and China, and the long term economic recession. HRP aims to implement drastic reforms of the Japanese government, thereby bringing peace and prosperity to Japan. To accomplish this, HRP proposes 2 key policies:

1. Strengthening the national security and the Japan-US Alliance which plays a vital role in the stability of Asia,
2. Improving the Japanese economy by implementing drastic tax cuts, taking monetary easing measures and creating new major

industries. HRP advocates that Japan should offer a model of a religious nation that allows diverse values and beliefs to coexist, and that contributes to global peace.

Read this book to find out more about the Happiness Realization Party

The Manifesto of the Happiness Realization Party

by Master Ryuho Okawa

This book is a historical declaration to change the world through a peaceful revolution by the philosophy and speech based on the Truth, rather than by violence or massacre. It is a must read for all people who wish to build a true utopia.

Charity & Social Contribution

We support people who are suffering from natural disaster, poverty, race discrimination, etc., and we also strive to resolve social problems.

Charity

HS Nelson Mandela Fund

The 'HS Nelson Mandela Fund' was established as an internal fund of Happy Science in 2013 to commemorate the publication of *Nelson Mandela's Last Message to the World* (by IRH Press). With the aim to nurture future leaders of their counties, this fund supports people who cannot receive education due to poverty or racial, gender and caste discrimination, people who are oppressed by their government and people who cannot receive medical treatment. HS Nelson Mandela Fund also supports the activity of the Nelson Mandela Foundation in South Africa and it is officially acknowledged by the foundation.

Natural Disaster & Medical Support

Happy Science has been supporting countries whenever there was natural disaster by sending funds, foods and medical supplies. Some of the places we have supported: earthquake in Japan / Sichuan (China) / Sumatra / Haiti / Iran, the Philippines during Typhoon Haiyan, sediment disaster in Uganda, etc.

Education Support

Happy Science have supported reconstruction of damaged schools and libraries during the Thailand floods and the Philippines typhoon. We also support schools in many part of India, Nepal, Sri Lanka, and Uganda.

Others

Happy Science also supports the activities of UNICEF, UNESCO and JICA. We also send foods and medical supplies to Gaza, Palestine, where there is constant conflicts.

Social Contribution

Prevention Against Suicide Campaign

Suicide is a growing problem throughout the world. In an effort to put an end to the unhappiness caused by suicide, Happy Science began the "Prevention Against Suicide Campaign" in 2003.

Network to Protect Children from Bullying

Happy Science supports the Foundation "Network to Protect Children from Bullying" in order to save children who suffer from bullying. This foundation has been established by parents and guardians of victims of bullying.

Social Recovery Aid

Happy Science supports the NPO "Self-Help Action Support Network" which helps people who need assistance to recover from domestic violence, alcoholism, drug addiction, and criminal acts.

Social Change Work

In 1995, Master Okawa pointed out the danger of Aum Shinrikyo that none of the media nor religious scholars noticed. Happy Science members staged a demonstration march throughout Japan to request for compulsory search of Aum. As a result, police were able to minimize decimation that Aum was planning, and Happy Science was rewarded with certificate of appreciation.

Other Activities

Happy Science does other various activities to provide support for those in need.

Success No.1

[Buddha's Truth Afterschool Academy](#)

Happy Science has over 180 classrooms throughout Japan and in several cities around the world that focuses on afterschool education for children. The education focuses on faith and morals in addition to supporting children's school studies.

Angel Plan V

For children under the age of kindergarten, Happy Science holds classes for nurturing healthy, positive, and creative boys and girls.

The Golden Age Scholarship

This scholarship is granted to students who can contribute greatly and bring a hopeful future to the world.

Never Mind School for Truancy

At 'Never Mind,' we support students who find it very challenging to attend schools. We also nurture their self-help spirit and power to rebound against obstacles in life based on Master Okawa's teachings and faith.

"You Are an Angel!" Project

Happy Science has a volunteer network that encourages and supports children with disabilities as well as their parents and guardians.

The Helen Society

Happy Science supports visually and hearing impaired people to study the Truth. By learning the Truth, they are able to study about this world and the spirit world, make themselves better, overcome their obstacles, and be able to live a bright life.

Future Stars Training Department

The Future Star's Training Department was founded within the Happy Science Media Division with the goal of nurturing talented individuals to become successful in the performing arts and entertainment industry.

New Star Production Co., Ltd.

We also have a company to nurture actors and actresses, artists, and vocalists. It is also involved in film production.

Art and Culture Festival

The Art and Culture Festival is held once a year with the hope of promoting religious art. Winners are given opportunities to further promote their art and pursue their passion.

Happy Marriage Consultancy

We support those who want to have a harmonious family through faith. Our aim is to contribute to the society by supporting harmonious families filled with love, peace, and tolerance.

Raise-Kofuku Ceremony Co., Ltd.

[\(Planning Office for Happiness in the Next Life\)](#)

We conduct funerals in the Happy Science format to bring salvation to souls who have finished their lives on earth.

Happy Afterlife Memorial Park

Happy Science has two memorial parks with the desire to bring happiness to people returning to the other world.

Golden Temple for Seniors

The Senior Golden Temple is a religious facility for followers over 60 years old who wants to go through religious training.
