The Basic Teachings

Here, we will introduce a part of Master Ryuho Okawa's teachings in detail. From the early days of Happy Science, Master Ryuho Okawa has been teaching us to practice the basic teachings of the "Exploration of the Right Mind" and "the Fourfold Path," namely: **LOVE, WISDOM, SELF-REFLECTION and PROGRESS**. "The fourfold path" is also known as "the Principles of Happiness." It is the fundamental teaching of Happy Science, which all members repeatedly study and practice.
